

CAVO A 4 ZONE PER SISTEMI A CANALE CALDO HOT RUNNERS 4 ZONES CABLE

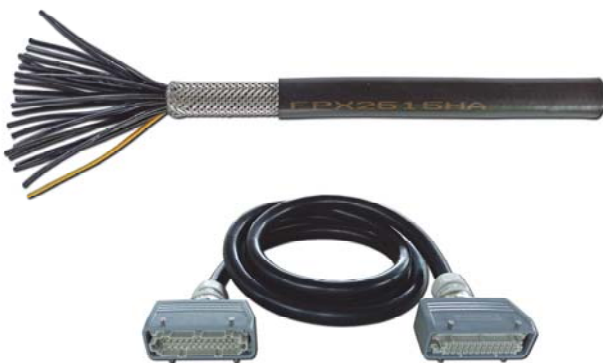

VANTAGGI - ADVANTAGES

- Diametro esterno compatto**
Compact outer diameter
- Identificazione rapida dei conduttori tutti numerati**
Fast identification of leads through leads marking
- Cablaggio rapido**
Quick wiring
- Cavo completo di doppio isolamento**
No need of outer sheath

CARATTERISTICHE - FEATURES

- Isolamento conduttori in PVC autoestinguente**
Insulation made by flame retardant PVC
- Cavi resistenze numerati**
ID numbered heaters leads
- Cavi termocoppie numerati**
ID numbered thermocouples leads
- Colorazione TC standard IEC (bianco/nero)**
Thermocouples colors according to IEC std.(B/W)
- Guaina esterna in PVC autoestinguente**
Outer insulation made by flame retardant PVC
- Diametro esterno 19 mm**
Outer diameter 19mm

CAVO ARMATO PER HOT RUNNERS 8 / 12 ZONE ARMOURED CABLE FOR HOT RUNNERS 8 / 12 CHANNELS

VANTAGGI - ADVANTAGES

- Diametro esterno compatto**
Compact outer diameter
- Protezione meccanica integrata nella calza metallica**
Cut and damage protection made by armoured sheath
- Identificazione rapida dei conduttori tutti numerati**
Fast identification of leads through leads marking
- Cablaggio rapido**
Quick wiring
- Cavo completo di doppio isolamento**
No need of outer sheath

CARATTERISTICHE - FEATURES

- Isolamento conduttori in PVC autoestinguente**
Insulation made by flame retardant PVC
- Conduttori numerati (1...16 / 1...24)**
ID numbered heaters leads (1...16 / 1...24)
- Sezione conduttori 1,5 mm²**
Leads cross section 1,5 mm²
- Colorazione TC standard IEC (bianco/nero)**
Thermocouples colors according to IEC std.(B/W)
- Isolamento esterno in PVC autoestinguente**
Outer insulation made by flame retardant PVC
- Calza metallica in acciaio zincato**
Armoured sheath made of galvanized steel
